

This file is 15 pages long and contains scans for 33 wood & metal fonts owned by **Lead Graffiti**. You are free to use them as you want.

When using these for our **Meander Book workshop** when we are printing from wood & metal type, you must use the letterforms at the original size. You can adjust the scale if you use them with a photopolymer plate.

Generally speaking, if a letterform is missing from this document, we do not have it.

If you have questions or concerns, contact us. You can find contact information and a thorough explanation of our Meander Book workshop on our website at **<https://leadgraffiti.com>**. Our studio is currently located at 120A Sandy Drive, Newark, DE.

Click here to download the original Adobe Illustrator file. A warning, the original Adobe Illustrator file is 10.5 feet tall.

For an thorough, hour-long video showing us using the file to design a page for our Meander Book project, you go to **<https://youtu.be/SnStrOC98EM>**.

---

**12 line Ancient Roman? - This wood type font is based on a metal face named Ancient Roman, allegedly designed by William W. Jackson and patented as No. 20589 on March 17, 1891.**
